Frontend & Mobile Developer specializing in React, React Native, Next.js, TypeScript, and Swift. Experienced in building and shipping production-ready web and mobile applications across fintech, logistics, CRM, and SaaS products.

## PROFESSIONAL EXPERIENCE

### Co-Founder, Guchly Studio

Jul 2025 - Present

- Co-founded Guchly Studio, leading product development from concept to release.
- Built and published Diarya, an AI-powered voice journaling app for iOS using SwiftUI, integrating speech-to-text, AI image generation, push notifications, Supabase, and RevenueCat subscriptions.
- Developing cross-platform mobile applications with React Native (Expo), including OTA updates, Supabase, and TypeScript; managing Linux VPS infrastructure, SSH, firewall, Caddy, SSL/TLS, subdomains, ports, PostgreSQL, and automated CI/CD deployments with GitHub Actions.

### MOBILE - WEB DEVELOPER, Adminsoft

Dec 2025 - May 2026

- Developed and published 3 production mobile applications for Android and iOS using Vue, TypeScript, and Capacitor.
- Built the MVP of a Warehouse Management System (WMS) and its warehouse mobile application with barcode scanning and task management.
- Integrated RevenueCat subscriptions, implementing paywalls and purchase/restore flows.

### FRONT-END DEVELOPER INTERN, Acun Medya

Feb 2025 - Jul 2025

- Built a full-stack e-commerce application independently using Next.js, TypeScript, Prisma, and PostgreSQL.
- Implemented JWT authentication (access & refresh tokens), admin dashboard, CRUD operations, Cloudinary media management, and form validation with React Hook Form and Zod.
- Improved SEO with robots.txt and sitemap, optimized performance using Lighthouse insights, and containerized the application with Docker.

### FRONT-END DEVELOPER PART-TIME, Inspiration Tech

May 2024 - Aug 2024

- Developed responsive Next.js applications with TypeScript and Tailwind CSS, integrating REST APIs and reusable UI components.
